**TRAFFIC ENGINEERING DEPARTMENT
MEMORANDUM**

TO: Patty Coffelt, Purchasing
FROM: David Ross, Traffic Engineer *DR*
DATE: July 2, 1992
SUBJECT: Req. #: 2TED007

The Traffic Engineering Department has received 2 vendor proposals for a new 1992 3/4 Chasis Cab with service body truck. Listed below are our comments and recommendations.

1. Kelly Chevrolet provided the apparent low proposal with a total unit cost of \$17,263.93. Delivery time is listed as no more than 30 days from receipt of P.O.

Changes from the prepared specifications include: providing hydraulic shocks instead of gas filled shocks, heavy duty power steering instead of power with cooler, cloth seats instead of vinyl, standard mirrors instead of recreational swing out. The changes do not substantially change the type of truck being offered the truck specified.

2. Allen County Motors, Inc. submitted the apparent second low proposal with a total unit cost of \$17,795.00. Delivery time is listed as within one week of P.O.

Changes from the prepared specifications include: a 60 amp generator instead of a 100 amp, standard mirrors instead of recreational swing out type, rust proofing as an extra instead of standard. The changes do not substantially change the type of truck being offered from the truck specified.

The Traffic Engineering Department has an approved budget object number 4441 "Purchase of Vehicles" in the amount of \$19,000.00. Therefore, Traffic Engineering Department recommends that a purchase order for a new 1992 model 3/4 ton Chasis Cab with service body truck be awarded to Kelly Chevrolet.
